

# 5 oral games with fairy tales, which help to go beyond

We all read fairy tales. Yourself, children, and even sometimes each other. Just sad that in every fairy tale there is a fixed script. Or it is only relatively constant?

Remember how many times watching the film or reading the book, you thought, "Well, what are you doing, don't go in there, not so say, we had so...". A familiar feeling? And everything can be different. Most importantly — imagination. We suggest you not to reinvent the wheel, but to take the stories and play with children.

---

## What is special about fairy tales?

In every tale there is an open goal: how to make...?

Recall that the open task is that task in which no single correct answer, many of them, we are expected to have the ability to see this space.

Closed tasks are those in which there is one answer:  $X + 5 = 7$ , what is  $X$ ?

Open problem always interesting and complicated. Just what we need. 7 oral games, developing thinking

Open tasks meet us at every step. Only we used to do something on the already established cliches so naive to believe that no more options. Accustomed to digging with a shovel, and when she is not at hand, do not know what to do; I used to eat soup from a plate, and are lost when the train is without the plates.

In open problems from the fairy tales we train the ability to go beyond, the ability to see many solutions, not to focus on the right answer. The tale gives free scope to imagination, as the children can think of a magical solution that is able to turn even the whole story. No matter what idea will originate in their mind, it is important that they understand how broad their choices.

We present 5 popular fairy tales that can be read, but to play by them

Tale No. 1. Bun

Surprisingly, even adults can cover a stupor on the simple question of popular tales.

**Open problem:** How to make a Fox ate the gingerbread man?

Tale No. 2. Cinderella

The evil stepmother made her daughter called to sort out the rump. In [essay writing service academic](#) the different tales poor heroine that not only went through, so here we can confine ourselves in the problem statement.

**Open problem:** As Cinderella quickly to sort out the peas and buckwheat to quickly catch the ball?

Tale No. 3. Sister Alyonushka and brother Ivanushka

Ivanushka wanted to drink, and the only source of quenching thirst was a puddle. The puddle was bewitched, so he turned into a Kid.

**Open problem:** As Alyonushka to help quench your thirst without puddles?

Tale No. 4. The tale of the Golden Fish

An old couple living in poverty. Somehow, throwing a net into the sea, the old man caught a magic Goldfish that grants any three wishes. The good man consulted with his old lady, and she broke in earnest, making more and more wealth, and in the end left with nothing.

**Open problem:** How to make it so tricky to fish is not limited to fulfilling three desires?

Tale No. 5. The snow Queen

The evil snow Queen was imprisoned in his snow castle brother of the main character Kai. His sister Gerda wants to save him. Of course, the easiest way is to melt the ice Queen with fire.

**Open problem:** The easiest way to get to the castle fire, but the servants of the Snow Queen notices this and will not be allowed into the Palace. As Gerda to the Snow Queen melt?

## **But what if you change the scripts of fairy tales, and not just the ending?**

We used open tasks from the scenario of the tales: they took an existing problem and come up with how the main characters have to deal with her. But you can come up with a very different tale, if you have the desire and imagination.

Options:

Poor Cinderella

- 1) What if the wicked stepmother could not leave Cinderella alone and even after she went through croup, complicated the task and he cast into one of the grains of the sand? How now Cinderella quickly cope with the task?
- 2) And if the Stepmother wanted to get Cinderella to sort beans red and white, how then to be?
- 3) now, the Stepmother mixed the salt and sugar. Was very angry woman. What to do, without killing her Stepmother?

Goldfish

### **More on this topic:**

The cartoons do not teach: 5 steps for effective problem solving

Imagine that the fisherman was able to fish his slave and cunning to avoid her magic so she could fulfill endless desires. Now we have to save the Goldfish. How to make the old woman was no more desires?

Try to look for other tasks in fairy tales, turn them, looked at from all sides, looking for an interesting story, from which you will be able to create their own, new story and to practice creative thinking.

In the next article we will talk about how we teach children in Gomologii to solve such problems, and what are the most interesting solutions to give children.

And open problems are in the cartoons... Wait for new releases!
